More Money Made.

As stated yesterday the total proceeds of the sale of awa licenses for this island the coming year was \$1936. This is more than was realized for the two previous years together, which was \$1846—being \$1045 in 1894 and \$801 in 1895. The cause is the new law, changing three licenses at an upset price of \$500 each for Honolulu to one license at \$1000. This one license brought \$1500 this year, or three times the former upset price. The change has had the effect of fanning combination of competitors.

BOARD OF EDUCATION.

Proceedings of the Weekly Meeting Yesterday.

There was a full attendance at the Board of Education yesterday: President W. O. Smith, Mrs. Dillingham, Mrs. Jordan, Prof. Alexander, W. A. Bowen and H. M. von Holt.

C. D. Pringle, a teacher who lost his position from some difficulty with a rebellious pupil, was promised another place when open.

Mrs. H. M. Davis of Portland, Or., applied for a school.

It was decided to unite the two classes of the Night School, owing to a falling off in attendance attributed to the holidays, Mr. Lightfoot to have charge.

Deputy Inspector Scott was authorized to have a temporary extension made to Beretania school-house to relieve the overcrowding there reported.

It was agreed that members of the Board should pay visits to the schools in and about Honolulu.

The Board accepted 250 sets of maps at 50 cents a set, out of 500 offered through Prof. Alexander.

The question of a vacation for the teachers in the night school, several of whom were present, was brought up from last meeting, and led to quite a lively discussion, participated in by W. O. Smith and the members of the board on the one hand and Principal Lightfoot and one of the young lady teachers on the other.

Mr. Lightfoot called the board's attention to the fact that most of the night school teachers had resigned good situations elsewhere and taken those in the night school in order that they might attend the normal school and better fit themselves for their profession. He thought such teachers at least entitled to as much consideration as those who taught in day schools. The latter were paid by the month and their salaries ran on during the vacation, while the night school teachers only received \$2 per night when actually working.

It was proposed to close the night schools during the vacation and not allow the teachers the per diem which they would otherwise receive. It was a matter of considerable moment to them, as it represented the money they needed to live on. He thought the proposal to pay one class of teachers during the vacation and not the other an outrageous one, showing marked favoritism on the part of the board, and he protested against it. Such instances of favoritism would result in curbing the ambition of those teachers who desired to perfect themselves in their duties at their own expense, and would probably result in the closing of the night schools altogether, at least for a time, as the teachers concerned would sooner resign than submit to such unjust discrimination.

Mr. Lightfoot was quite warm in expressing his views to the board and he was ably seconded by a young lady teacher, who gave the board her sentiments on the question and an intimation that her resignation would be forthcoming if the proposition passed.

The Attorney-General was decidedly opposed to paying night school teachers when they did not work and Mrs. Dillingham seemed to agree with him. On the other hand Prof. Alexander and Mrs. Jordan favored paying them. Mr. von Holt expressed no opinion either way, and will probably have the deciding vote, as the whole subject was laid over for another week.

Jayasuraya has received a large invoice of Ceylonese novelties, jewelry, etc., for the holiday trade. Many handsome articles are on exhibition at his store No. 6 Hotel street.

1895 Rambler, \$75.00

Trusting that you may be interested in cycling, we take the liberty of stating to you a few facts about our wheels:

We need not trouble you with needless description of the World Famed "RAMBLER" Bicycle, which by its easy running, appearance, strength and lasting qualities has won for the makers a name world renowned.

The "RAMBLERS" are equipped with the great G. & J. Detachable Tire, which since its introduction to Honolulu has proved, by the numbers in use, the most successful and necessary adjustment to a bicycle.

We take great pleasure in recommending to our friends the "RAMBLER" and trust that in furnishing one to any person they will never have occasion to regret.

Our terms are such that a bicycle is no longer a luxury but a necessity in actual saving of time and money. We would ask you to but call and get our figures.

1896 Rambler, \$95.00

As is customary nearing the close of each year, the makers in order to get ready for the ensuing year, offer the present 1896 wheels at reduced prices. We are now prepared to give our customers the benefit of these reductions as long as our stock holds out. For those wishing an up to date wheel of the highest grade, one which we can guarantee to the fullest extent, we would offer the "RAMBLER." As to improvements for the coming season we would say we anticipate none. Such changes which may be made will, as has been the past two years, be changes immaterial to the improvement of the wheel in general.

Kindly give this some thought or call your friends' attention to it and oblige.

Yours truly,

E. O. Hall & Son
LIMITED.
